FILLAST - In Depth Revitalizer Day & Night Concentrated Serum

30 ml (1 Fl. Oz.)

5 vials of 2 ml (0,3 Fl. Oz.)

Energizing and anti-wrinkle facial “shock” treatment

FILLAST - In Depth Revitalizer is an energizing and revitalizing “shock” treatment.

It reawakens the skin’s vitality combating the visual signs of the natural aging process.

FILLAST - In Depth Revitalizer can be used as a preliminary treatment to enhance the effect of other **FILLAST Technological Luxury Cosmetics** products.

Ingredients and Cosmetic Function

Hyaluronic Acid <i>100.000, 400.000, 1.500.000 Dalton</i>	<i>Balanced multi-level hyaluronic acid supplement.</i>
Acetyl glucosamine	<i>Facilitates the biosynthesis of Hyaluronic Acid, acts as an antioxidant and evens skin color (obstructs melanin accumulation).</i>
Fucose	<i>A hexose deoxy sugar containing important properties, it has antioxidant qualities, stimulates the biosynthesis of elastin and synergizes with Acetyl Glucosamine to encourage the natural production of the skin's own Hyaluronic Acid.</i>
Acetyl Esapeptide-8	<i>Visibly relaxes thin lines and dynamic mini-wrinkles.</i>
Urea	<i>Hydrates and smoothes skin.</i>
Mandelic Acid	<i>Exerts a mild peeling action to remove the dead cells of the stratum corneum.</i>

Acetyl Esapeptide-8 and “dynamic” wrinkles

Dynamic wrinkles, or expression lines, are caused by repetitive muscle contractions and generally first appear at around age 30.

Exaggerated facial muscle tensing should be avoided to achieve a more relaxed and wrinkle-free face.

Thanks to the action of **Acetyl Esapeptide-8**, the first peptide dedicated to exerting a specific action on these dynamic wrinkles, **FILLAST - In Depth Revitalizer** combats the appearance of expression lines.
